

LLumin CMMS+

INVENTORY CONTROL AND MATERIALS MANAGEMENT

Imagine having unparalleled visibility into your tooling and materials inventory across all your locations.

LLUMIN CMMS+ MAKES IT POSSIBLE.

LLumin CMMS+ empowers you to track, manage, and optimize inventory to ensure you always have the right resources, in the right location, at the right time.

Cradle-to-grave tracking

Rotable spares management

Enterprise-level visibility

Single-click procurement and punch-out functionality

Hazmat material management

Powerful transaction logging for compliance reporting

“LLumin has helped Savage Arms reduce on-hand MRO inventory by 23%. And we run a much more efficient tool crib.”

-Controller,
Savage Arms

With LLumin CMMS+, you can take charge of your inventory control and materials management like never before.

The platform's mobile-friendly interface makes it easy to manage stockrooms, track items throughout their lifecycle, and optimize procurement workflows. This allows you to boost efficiencies, drive cost savings, optimize work order completion processes, and meet regulatory requirements in a single application.
